DAILY PACIFIC NEWS.

THURSDAY MORNING, DEC. 5, 1850.

Cholera, Filth, Bad Water, Fruit, &c.

To the Editors of Pacific News—

On occasions of any public calamity, or scourge amongst us, like the Cholera, which has done, and is now, to some extent, doing its fatal work, it seems to be the *duty* of every one, throwing aside a mistaken delicacy, to give all the information in their power, which may serve, now and hereafter, to mitigate the scourge.

And now as to a few *facts*, here and there. I went from this city to the Yuba River mines, in June last. It was healthy here and at the mines, at that time. The water was tolerably high then, the steamers running to Marysville easily. As to a *mineral* substance in the river water, perhaps that is for scientific men alone to determine. All I can say on that head is, that after myself and my brother, and several of our neighbors at the mines, left off using river water, and drank and cooked only with *ravine* or spring water, the diarrhœa, the most prevalent and dangerous disease in the warmer months, left us, and we were as healthy and hearty as ever.

We returned to this city in September last, following the Yuba, Feather, and Sacramento Rivers, in a whale-boat, down to Sacramento city, and thence to San Francisco by steamer. When at Marysville, the first thing that attracted my attention was the filth about the buildings, and especially on the river banks—although something of a current at that place, the water being so muddy and dirty that one could hardly see the bottom at two feet depth, and the inhabitants, horses, mules and oxen continually using it together for drinking purposes. Proceeding down the Feather and Sacramento rivers, the waters there being low and sluggish, we had a good opportunity of witnessing what would breed a scourge in *any* country. To say nothing of the rotten odors with which our nasal organs were saluted, further up the river, from dead mules, horses, &c., lodged on the banks and shoal places, we actually *saw* and *smelt* no less than eight bloated and putrid oxen, in the Feather river, within a space of less than half a mile below the town of Nicolaus. The stench was intolerable and sickening. The rivers from there to Sacramento were literally lined with putrid horses, mules, oxen, &c., and what is more, and still worse than all, this sluggish, putrid river water is drank daily, and used to cook with by the river men and travelers, for want of any better. At Sacramento, where a current in the river can hardly be perceived, I saw one man throw a basket of filth into the river, and in less than one minute after, another man directly below throw in his pail for water to cook his dinner with. I then thought, considering the extreme filth of Sacramento, the "slough," and reckless eating of fruit, and the nightly exposure of exhausted emigrants and miners, that if we did *not* have a scourge soon, it was impossible to *breed* one. Sacramento, and the towns on the sluggish, filthy waters above, have told too sad a tale to dwell upon.

And now, with all due deference, a word as to the city of San Francisco. The press have spoken out boldly and nobly, for the authorities to cleanse the city. The said autorities have made clean the *outside*, but *within*, it is still "full of rottenness." I speak plain, upon a plain subject, for the public, of whom I am one. I drive a horse and wagon, and sell bread for a baker. I go twice daily through the city, from the Marine Hospital to Long Wharf, and through Happy Valley, back to the bakery, and have daily opportunities of seeing, and of being exposed to the scourge. Sometimes I have to carry bread around into the "back kitchen," and then a sack of flour or meal, and sometimes I go into the back yard to get a wagon load of refuse lumber for oven kindling-wood, &c.

To say nothing of the private residences, groceries, and smaller and less *aristocratic* houses of entertainment, nor of the "stagnant pool" at the corner of Montgomery and Jackson streets, I wish to speak decidedly of such places as the alley and back yard in rear of the large block of buildings comprising the Parker House, Union Saloon, &c. Having occasion one day last week, to drive into the last-mentioned place for a load of refuse lumber, I was so affected by the poisonous stench, as to cause sickness at the stomach and an unpleasant moveing of the bowels. Several Spanish boys, with baskets and wheel-barrows, were carrying out the filth and rubbish from the cellars, &c., and throwing it, "helter skelter," about the yard, to be carried away *some time*, by order of the authorities, for aught I know. A German, at work with me, remarked, "dat stuff ish full of te cholera," and I thought so too.

The city is very filthy now, and unless the authorities see to it that the city is actually *cleansed*, we may have the scourge walking at noon-day among us, even in mid-winter.

ALL FOR THE NAME.—A chap in South Seventh street, Williamsburgh, has for sale "Jenny Lind Paint and Putty." It has been suggested that the stove man next door ought to advertise his wares, "as without smoke and never sooty."

A PUFF FOR SHAKSPEARE.—The Doylestown Democrat, in acknowledging the receipt of a copy of Shakspeare, calls it a "work that has long been admired for its originality and sentiment."

Democratic Stand.

A short time since, when the first germ of partyism began to manifest itself in Sacramento, we came out with a leading article entitled "Let us have Political Parties." We expressed our conviction that California had long enough suffered from the evil results of "scrub races," so called; that it was time we had that healthy surveillance which the party out of power always exercises over those of the opposite party who have been elected to office. Under the influence of the feelings which prompted us to write that article, we have raised the flag of the Democratic party.

But there are additional reasons which have induced us to work for concentration and harmony in the Democratic ranks, and we know that they will induce others also, our Democratic friends throughout Northern California, to draw the party lines, to collect our scattered forces, and to stand ready for the emergencies which are to come.

California has just been admitted as a State. She is no longer an anomaly in our country—a distinct body politic, unconnected save by blood and patriotism, with the great American people—in, yet not of, the Union. She is an integral part of a great country; one among thirty-one equal and combined States. She takes part with the rest in the general government, and she has therefore an interest in the policy adopted by that general government—in the welfare, the advance of the whole country. It is well known that there are always, in a Republic, a great party of advance, and a great conservative party; one of which determines the policy of the general government. We feel that since California is at last a State, her citizens should arrange themselves into their respective parties, in order to determine which policy California desires the general government to assume for the benefit of the whole country. Let all who are Democrats, therefore, work for Democratic principles, and for harmony, for in that way they work for the good of the whole country. But California not only has an interest in the prosperity of the great country of which she is a part—she has a more immediate interest in the effect which the measures adopted by the general government will have upon her as a State. Therefore we believe it to be time for the Democrats to arouse and form their ranks, so that, when necessary, they may act with telling effect.

The conservative principles of the Whig party are not in harmony with the onward spirit abroad in California. The Whigs are endeavoring, however, to fix their policy upon the State, and the Democrats should be up and doing. We believe the adoption of the Democratic platform we gave yesterday, in which doctrines were laid down in relation to the settling of disputed land-claims, the disposal of the public lands, the homestead exemption, the tariff, the establishment of a mint, and the policy to be assumed in regard to the mines, to be for the best interest of California. We believe that the commerce of California should be fostered; we believe that the miner should be protected from taxation; that the head of a family, or any other man who has come to California to settle, should receive a grant of land; that the homestead should be exempted from forced sale; that this unjust drain upon the gold of California, (millions and millions monthly, to swell the pockets of brokers,) should be stopped. And we shall take opportunity to remark at length, on each of these topics. We feel that every Democrat should use his best endeavors for the success of the doctrines we have already laid down. And as Democrats, we could not stand back ourselves. The platform is laid. It is sound; and we desire to be among the first upon it.

In addition to these reasons, we are especially called upon at this time to show our colors, inasmuch as there is work to do in electing a Senator to represent us at Washington. The State is in its infancy. Measures for California are to come before Congress for their consideration. Most important laws are to be passed, which will give a bias to the whole future of our State. Democrats are therefore called upon, particularly at the present time, so to combine, as to enable our Legislature to send to Congress a man who entertains those principles we believe to be sound. The party lines have not heretofore been drawn, throughout the State, and the consequence is, in looking over the members elect of the next Legislature, and enquiring strictly into their politics, we find that the Whigs happen to be nearly as strong as the Democrats, upon joint ballot. The elections have been conducted with so little attention to politics, that we can only say it is fortunate there is not a clear Whig majority. It is important to have the Democratic force in the Legislature as strong as possible, in order that no contingency by death, unavoidable absence, or otherwise, may defeat our party. We trust, therefore, that our friends will put their shoulders to the wheel, and elect the regular Democratic nominee, to fill the vacancy occasioned by the death of the late Mr. Dunlap.

We have thus thrown together, as concisely as possible, a few of the reasons which have induced us to take the stand we did yesterday: and we believe that all good and true Democrats will see that now is no time for them to remain on neutral ground, but that the period has come for them to come out and do their duty.

GOLD AT GRASS VALLEY.—We have heretofore alluded to the extensive diggings found in the vicinity of Nevada and Grass Valley, where the gold is scattered promiscuously through the earth, as well as found in leads along the channels of ravines. By recent information, we learn that discoveries have been made at Grass Valley of an immense vein of quartz, which bears gold so richly that good wages have been made by men with a common hammer, who broke up the rock and picked out the gold in lumps, varying in value from a bit to one dollar.

The quartz bears gold so richly that many miners have deserted old claims and located new ones on this vein. We have seen several specimens which are quite rich, though we are assured they are rather poor specimens of the vein. Not having any means of testing their value, we are unable to give the per cent.; but should think the specimens exhibited to us about four times as rich as quartz which is worked in the North Carolina mines, and considered rich. The whole vein is already staked off in claims of not over ten feet square, and many are calculating their "piles" out of these claims, in the course of the winter. [Transcript.

AGITATION REBUKED.—Governor Everett, of Massachusetts, in a letter to a Whig Cambridge City Committee, declining the nomination which they had tendered him as one of the Delegates to represent them in the Worcester Convention, takes strong national grounds, which are highly creditable to him as an American and a patriot. Governor Everett has shown to the world, that he properly understands and appreciates the duty, which, as a distinguished public man, whose opinions are regarded with respect and confidence by his fellow citizens, he owes to his country. In this letter, he frankly, and boldly denounces every attempt to revive the dangerous agitation which so long and so unhappily threatened the peace and institutions of our common country. He openly repudiates everything in the shape of a local or sectional party, in national politics, as striking directly at the vital principle upon which the union of these States, in one grand and cordial brotherhood is based, and administers a rebuke as caustic, as it is well merited, to the miserable, notoriety-seeking demagogues who are now traitorously seeking to re-open the rapidly healing wounds of a country already bled to repletion, and harrassed to the very verge of self destruction.

Let his example be followed by all the great and good men of all parties, and all the small fry agitators of the land will soon be consigned, and forever, to the contempt and ignominious obscurity which they have so justly earned for themselves. [Universe.

STOPPING THE PAPER.—Lord Byron, in reference to the attacks made on his poems, "Hours of idleness," said—"There is no man, however thick-headed or heartless, who would not smart under the knowledge that he was held up in even fifty copies of a newspaper; there is, however, no one but a very thinned-skinned fool who would, as the phrase goes, stop a paper because it did not chime in with all his notions, or because it attacked him. Whatever foible I may have, I am not guilty of this miserable foolery."

MISCELLANEOUS.

PROSPECTUS OF THE SAN DIEGO HERALD.

"There the large olive rains its amber store
In marble fonts, there grain, and flower, and fruit,
Gush from the earth until the land runs o'er."
[Byron.

The undersigned beg leave to announce to the public of California generally, and to the English-speaking population of Southern California in particular, that they intend to publish a newspaper at San Diego, under the above title, the first number of which will be issued about the first of January, proximo.

Terms of subscription, $12 per annum. In politics, the San Diego Herald will be *independent*, but not neutral; it will be the organ and engine of no party,—but the impartial advocate of such measures as shall seem best calculated to promote the general welfare of the State, and advance the local interests and property of Southern California, or more immediately of the District of San Diego.

Its design, however, will by no means be to engender any sectional jealousies, or to encourage any measures at variance with the unity and harmony of the State. Its paramount object will be to describe the localities and unfold the resources of "the sunny and luxuriant regions of the South"—to watch over their social and administrative interests,—and to promote their welfare by every legitimate means and influence which the press can employ.

To the American residents in Southern California, the publishers will look for their principal support; and considering the expense of the undertaking and its immediate importance to the local interests of San Diego, it is hoped that the publication will meet with their liberal encouragement. Among the inhabitants, however, of the Northern districts, the *San Diego Herald* will expect to have many readers desirous to obtain authentic information and periodical intelligence from the South.

J. JUDSON AMES & CO.

San Diego, Nov. 16th, 1850.

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO WISH Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47½ varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New Surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen anywhere north or east of us, in California; and the grain growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH—Listen now: The average summer heat is 75 to 80 degrees, with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer. We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and in mind. We have had but one death out of the immigration of 1846, an old gentleman who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law-abiding and a law-supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon, to the subscriber, in the south end of the city.

THE PEOPLE OF THE STATE OF California, District of the County of Santa Clara:

Jose De Arnaz *vs.* Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey.—Petition to foreclose mortgage, &c.

Whereas, *Jose De Arnaz* filed in this Court, on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date:

That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises, to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioner's mortgage, and for general relief.

And it being proved, by affidavit, to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence, and decreed accordingly.

It was supposed that he laid concealed in Cyante until the last day of August or about the first of September, and when last seen, was met in company with some others on the Salinas, on his way to the river Colorado, and to Texas, where his mother resides. Sale of City Lots.

We referred briefly, yesterday morning, to the proposition made by a member of the Board of Assistant Aldermen, for the sale of the lots claimed by the city, taking in payment therefor the scrip already issued by the city. This proposition is one which will meet with but little favor in any quarter, except it may be from those who have purchased this paper at twenty-five to fifty per cent. on the dollar, and who, having no use for the money, except as an ultimate productive investment, would, in many instances, gladly accept some of the wharves, water lots, and other valuable property now in possession of the corporation.

An ordipance has already been passed, placing the city property in the hands of Commissioners, who have been appointed, for the purpose of creating a sinking fund, and thereupon negotiating a loan with which to pay off the indebtedness already incurred. The Commissioners under this action of the Board, have, if we mistake not, already taken the preliminary steps to accomplish the object, and have signified their readiness to proceed with the duties assigned them. To take the matter out of their hands now, would make a farce of a well-devised plan for relieving the city of embarrassment, and we certainly have had too much legislation of this character, already. Doing one day, and undoing the next, will never place our city government on a stable and satisfactory basis.

Besides, this course would not enure to the benefit of the many to whom the scrip has been issued—to those who are the actual creditors of the city, who have given an equivalent, and, in many instances, been compelled to dispose of the depreciated paper of the city, at an enormous sacrifice. This class of men are not to be benefitted, but the capitalists, the speculators and monied cormorants, are to reap the harvest. A vast amount of the scrip issued to contractors and others, has been hypothecated at fifty, and even as low as forty per cent., and should the borrowers be unable to redeem the amount at maturity of their obligations, the Shylocks will take advantage of circumstances, declare the whole forfeited, and invest the amount in city property, at a hundred cents on the dollar. It is true that competition amongst the holders of city scrip, might advance the property sold beyond what it would bring in money, and thus a greater amount be redeemed. But the result would be the same. The speculator, and moneylender at enormous rates of interest, would be the ones benefitted, and not the parties who *should* be the recipients of any pecuniary benefits that may be derived from the sale of the property, or any other action of the Common Council, having in view the redemption of their depreciated paper.

These considerations alone should be sufficient to prevent a consummation of the plan proposed, if there were no other reasons. We have had enough, in all conscience, of speculations in city property, of legalised robbery and unblushing knavery, and it is quite time that the door to such peculations be closed. If the city possesses a valid title to the property, such as would be required in a suit at law, let some legislation on the part of the Council put it in such a shape as shall redeem the scrip paid to an efficient Police for services rendered, for City Hospital expenses, salaries to city officers, and a thousand other just and righteous claims, which equity demands should be paid *first*, before the hungry speculators, whose appetites *should be* already satiated by spoil, are consulted, and their interests protected.

To-morrow evening the Council meet again, and we have no doubt the proposition advocated by the Assistant Alderman will again be brought forward, but we greatly mistake the good sense of the better portion of both bodies, if they submit to a consummation of this magnificent scheme, so fraught with evil to the many, and productive of good only to the monied few.

STEAMERS.—We shall look pretty confidently for the mail steamer Carolina to-day, if she left Panama on the 15th ult., bringing two weeks later intelligence from the States. The New Orleans, also, is hourly expected. She was to have started on the 10th ult. The Ecuador is also due.

Land Reform.

By the proceedings of the Democratic Convention at Sacramento, published yesterday, it will have been seen that the resolutions distinctly take ground against monopoly in public lands by any class of individuals who happen to have the capital to purchase and hold immense tracts. "Land for the landless, a home for the homeless," is a doctrine that is obtaining a widespread popularity, and a strong concurrence. A large convention was recently held at Albany, N. Y., in which the subject was thoroughly discussed. They resolved that Labor could "only be emancipated by the abolition of land monopoly; and that the way to accomplish this is to refuse to support political parties until they adopt Land Reform measures; that the recent civil war and bloodshed in California arose from land monopoly, as did the Anti-Rent commotions in New York State. These civil broils and bloodshed admonish us that we must adopt some correct principle in relation to the Public Lands, so that our people can earn an independent subsistence from the soil."

The Democratic party of Sacramento have undisguisedly set forth their views of the oppressive system of land monopoly, and in doing so, have adopted a measure, in the view of the masses, as vital to the welfare of California, as her organization and admission as a State.

GOING, GOING!—The first we know, some fine afternoon, the *Pic.* will go over, body, breeches, and *influence*, to Whiggery! It is rubbing down the President, soaping the appointees, and excusing the administration for putting out Democrats and putting in Whigs. These are unmistakeable symptoms of a disease that generally proves fatal. We say "go it" the more the merrier. Besides, our opponents need a little help, to make a respectable show in the future campaigns. They might establish a Whig press in every county in the State, and would hardly succeed in controlling the political aspect of the State.

If the *Pic.* *should* come out Whig, and "the party" *should* have a majority in the Legislature, and Col. Collier *should not* be sent to Washington, as U. S. Senator, we might be induced to lend a helping hand to our editorial brother! We might indeed, if all these contingences be avoided, and no more likely man take the field!

THE SIDE-WALKS.—So far as these go along the planked streets, we did not intend so much to speak at this time. Even there they are bad enough, full of irregularities which call for amendment. But off the planks, sidewalks are almost a thing unknown.

We observed yesterday that the side-walk has just been laid from the corner of Sansome and Battery streets, and down this last street towards Cunningham's wharf; but whether this has been done by private enterprise, or by the Street Commissioner, we could not learn; though we believe by the latter. Every part of the city should at once be provided with side-walks in like manner. If the city builds for one portion of the town, it certainly ought for another. At any rate, give us the side-walks. We hope the Common Council will pass an ordinance to secure this, if it cannot be accomplished without.

☞ In another column our readers, and especially those conversant with the French tongue, will find an interesting article, giving the views of the Italian school of medicine in relation to the cholera. We have had some conversation with Dr. Capello, the author of the article, and find him to be a very sensible and intelligent gentleman, capable of thinking and reasoning for himself on any subject. Very few who come to us from the continent of Europe more closely resemble the Yankees than do many who come from the Italian peninsula. Betta is almost the only foreigner belonging to any country except Scotland, who has written our history with anything like a proper apppreciation of American ideas.

☞ The *Transcript* and *Times* of yesterday notice our new dress in terms the most flattering and kind. To the proprietors of the former journal we can never cease to acknowledge the deep obligations we are under for printing material placed at our disposal by them, after the fire, and without which it would have been impossible to have re-issued the *News* at the time we did. To both our cotemporaries, we offer our thanks for their uniform kindness and courtesy.

CITY SCRIP.—Some one published a statement in a morning paper, to the effect that Mr. Comptroller Berry had refused to take scrip in payment of city taxes, for more than seventy-five cents on the dollar. This gentleman pronounces the statement "unqualiedly false." Although good salaries and fat pickings are attached to some of the city offices, all of them are not beds of roses, by any means.

LARCENY.—Officer Wilson, at a late hour last night, arrested a man who had stolen a pair of pants from a store in Washington street. The excessive cold weather may have driven the fellow to the commission of the crime, but whether it will excuse him or not, we suppose will be settled before Recorder Tilford this morning.

THE PUBLIC BALANCE.—In consequence of delay in getting the necessary apparatus in order, the publication of the first number of the "Balance" has been unavoidably postponed until Saturday.

☞ Mr. G. E. Clark, the Agent at Sacramento, of Gregory's Express, laid us under obligations last night for Sacramento papers.

FIRST PAGE.—A communication in regard to the cholera, and sundry other articles of interest, will be found on our first page.

Record of City Courts.

Wednesday, Dec. 4.

SUPREME COURT. Present Justices Bennet and Lyons.

R. D. Hart, appellant, *vs.* Jeremiah Spaulding, respondent. This case was remanded back for trial of a specific fact.

Francis Hoaen *vs* Bezar Simmons et al. Judgment of lower court reversed.

Application for charter of California College. By act of the last legislature power was conferred upon the Supreme Court to grant a charter for a College in this State, if certain conditions were complied with. The endowment for said college, the court held, must be a cash endowment. That but a small portion of the funds for endowment is in cash, the greater part being made up of subscriptions of landed property, the value of which it was impossible to ascertain, and it could not be known whether the requisite amount for endowment had been subscribed.

Francis Mena, respondent, *vs.* Leroy, et al., appellants. A new trial ordered with instructions to the District Court to require parties to form issue in same manner as though the case had originated there.

DISTRICT COURT, Dec. 4th, Hon. L. Parsons presiding.

Denison *vs.* Smith. Motion for continuance overruled.

The People, &c. *vs.* Stephen Hendrickson. Bond of E. B. Sackett for appearance of defendant declared to be forfeited.

Belknap *vs.* Whitman. Judgment for plaintiff, $200.

City of San Francisco *vs.* Melhado, Gunter & Hews. Dwinelle and Gilman for city, and Wilson and Clark for defendants. This was action brought to recover damages to the amount of $10,000 against defendants, who, it was alledged, had committed a trespass in driving piles in the Bay, near the eastern extremity of Central wharf.

Defendants objected to the introduction of sundry pieces of testimony as irrelevant. The court, however, thought it best to admit them and have all the facts before jury, and leave all questions of law to be decided by the Supreme Court. Upon the conclusion of the examination of witnesses, defendants' attorneys moved a non suit, on the ground that the action had been improperly brought, and desired to argue the point. The court declined hearing an argument, and, upon the suggestion of plaintiffs' attorneys, that they would be satisfied with nominal damages,—submitted the facts to the jury. The jury rendered a verdict for plaintiff, and assessed damages at six and one-fourth cents. This verdict virtually enjoins the defendants from farther operations in pile driving until the question of title can be decided by a higher court.

SUPERIOR COURT., Dec. 4th, Hon. C. Justin Shattuck, presiding.

Kyle *vs.* Gherardelli. Judgment by default.

Earnest Rufus *vs.* Wassler, et al. Rabe for plaintiff, and McAllister for defendant. Argued without jury and submitted.

Winants *vs.* Hopkins. Set down for to-day.

Lockwood, et al. *vs.* Gunter, et al. Placed on foot of docket for to-day.

Gunter, et al. *vs.* McCarthy, et al. Placed on foot of docket for to-day.

Melhado *vs.* Crane, et al. Continued by consent.

Evans, et al., *vs.* E. Musson. Interlocutary decree entered.

RECORDER'S COURT.—Hon. F. Tilford presining.

Nuisances.—Charge against keeper of German boarding house, fine $15. Bernardo Caduro fined $25 or imprisonment for five days.

Disorderly Conduct.—B. Mandecia and Bartolo Bassett, two gentlemen, being out on a "bust" last Tuesday night, and becoming angry with each other, determined to settle their differences by a fight. They accordingly started up Washington street from the Bella Union, but were followed by an officer, and before they had done any injury to each other, were taken into custody. The Recorder fined them $10 each.

Burglary.—Lewis Freeman: continued.

Breach of Peace.—B. McLeary fined $5.

Robbery.—G. W. Adams and W. H. Swan were charged with robbing a man in Pacific street, on Tuesday night. The individual whom it was alleged had been robbed, testified that he was going home late that night, and that he turned into a shop to get a drink. That when he entered, ten or twelve persons were sitting about singing songs. They invited him to join in, but he declined. While sitting down, listening to what was going on, suddenly the lights were blown out, and he was seized by two men, one holding him back by the throat, while the other cut into his pocket and took out about $30. He struggled, and made a noise, which induced an officer to go to the place. The officer arrested the two men above named. The witness recognized them as two of those who had been in the room. The Recorder, upon request of counsel for defendants, continued the case.

A BILL OF PARTICULARS.—We find in the Sacramento papers the following bill presented to the Common Council of Sacramento. It certainly is a curiosity in its way. We give it for future preservation:

BY LAST NIGHT'S BOAT.

News from the Sacrmento Valley.

At an early hour last evening we obtained our copies of Sacramento papers of Freeman & Co's messenger, whom we found snugly stowed away in the embraces of *Morpheus*, on board the Senator, and from which it took some hard knocking to arouse him.

The Democratic mass meeting, which was to have taken place last evening, has been postponed till Thursday evening, 12th inst.

The *Transcript* gives the correspondence between the Chairman of the Democratic Convention and the various candidates for Assembly: and if the spirit evinced in the replies is to be taken as that of the party in Sacramento, then is success by an overwhelming vote assured beyond a peradventure. F. C. Thayer, Esq., says, in his reply:

"Fully believing that the best interests of our State and country are identified with the success of the general principles and measures of the Democratic party, and that the success of the party in the coming election is of far greater importance than the political preferment of any individual, I shall cheerfully acquiesce in the action of the Convention, and render a hearty and cordial support to such nomination as it may judge best calculated to secure the harmony and success of the party."

W. E. Geiger, Esq., the nominee of the Convention, states in his letter:

"I have only to say, that I feel too deeply the importance of the success of Democratic principles, to suffer personal aspirations to influence me to their possible defeat."

THE CITY DEAD.—Mr. E. S. Youmans presented a bill to the Council last evening, for coffins furnished at the expense of the city, from the 1st to the 25th of November, which amounted to $4,600. —Trans.

GAME ALONG THE SACRAMENTO.—Mr. John Cockrell, with two others, are located along the Sacramento, about forty miles from the city, and design turning their entire attention to supplying this market with fresh meat. One day last week they brought to the city 7 elk, 3 antelopes, 100 brace quail, 4 dozen geese, 62 ducks. As an evidence of the abundance of game, Mr. C. states that four of the elk were shot in the course of an hour.—Trans.

A negro named Lewis Ford was shot on Monday night last, while attempting to escape, after being arrested for stealing two horses. From his own confessions to a supposed accomplice, before being killed, it appears that he was connected with a somewhat extensive gang, who operated between Sacramento and Marysville. He was fired at by L. M. Taylor, W. P. Henry, and C. E. Morse, and on a post mortem examination, seven balls were found in his body.

The Fugitive Slave Bill.

All niggerdom, and its peculiar friends, the Seward abolitionists, are up in arms about the Fugitive Slave Bill, which passed Congress at its last session, and runaway slaves, heretofore petted and made "fat and sleek," are leaving the States for more agreeable associations in Canada. The free ones, however, are up in arms, and encouraged by the white political negro-lovers, are working like a black cloud in defense of the "largest liberty." A meeting was recently held in New York, called together by the following imposing handbill:

THE FUGITIVE BILL.
THE PANTING SLAVE.
FREEMEN TO BE MADE SLAVES!
Let every Colored Man, and Woman too, attend the Great Mass Meeting, to be held in
ZION CHURCH,
Church street, corner of Leonard, on Tuesday evening, October 1, 1850,
For your liberty, your fireside is in danger of being invaded! Devote this night upon your DUTY to the CRISIS.
Shall we resist oppression? Shall we defend our liberties? Shall we be FREEMEN or SLAVES?
By order of the Chairman of the
COMMITTEE OF THIRTEEN.

At the hour named, a motley assembly of shades and colors were seen in *dark* counsel, one offering a prayer, another talking about outrages upon their rights, a third denouncing the whites *in gross*, and the fourth spouting valiantly of defending their persons from the man-stealers at the point of the bayonet! A more perfect abolition farce was never enacted, even with Abby Kelly to head the movement. The darkies, with their white associates, finally adjourned, after resolving to do everything to everybody and their friends.

Speaking candidly of the fugitive slave law, although a compromise measure demanded and pressed through by the South, we think it will be one of the most disastrous ever placed upon the statute books. It has already caused a thrill of excitement throughout the Northern States, and the result will be bitter exasperation, ill feeling, riot and bloodshed. And yet, while it remains a law, we hope to see it *fully enforced*, even though it require a U. S. army of soldiers to compel an observance of its provisions. Time, however, will show the short-sighted wisdom of its passage, and prove the necessity of its repeal, or essential modification.

THE POLICE.—In our remarks on depreciated scrip and the holders of it, we do not wish to include our excellent police force. This body is composed of men who could all of them command good wages, and who are well qualified for any calling. Their pay in cash would be but small, $56 per week, and this much they ought to have.

The pay of policemen is among the necessary current expenses of the city government, and it ought to be met in the same good faith as is required by the contract which employs them. And such, we are glad to believe, is the general feeling on the subject in the minds of the City Council, to whom they have applied for relief.

FROST AT SACRAMENTO.—We understand that on Tuesday night the entire region round about Sacramento was covered with a white frost. Tuesday morning, in our own city, was one of the coldest we have ever experienced here. Warm overcoats were decidedly comfortable.

CHOLERA.—For the twenty-four hours ending yesterday noon, there were twenty cases and nine deaths by cholera.

Reflexions Medicales

DU DOCT. JEAN COPELLO DE GENES, DE LA SOCIETE MEDICO QUIRURGIQUE DE BOLOGNE.

Ayant vu que l'opinion du Dr. Pignot, publie dans le S. Francisco Herald, que *la maladie dominante dans cette ville et en Californie n'est autre chose que une fievre pernicieuse* a ete adopte et suivie a la lettre par quelques medecins qui ont beaucoup de renomee; je ai cru de interet public l'esaminer, et de mon droit de faire usage de la meme liberte pour esposer la mienne.

Les fievres pernicieuses regnent dans certains lieux paludeux: les maremmes Toscaines et Romaines, celles de Mantue, de la Sardaigne, d'Alger, du Presil, de la Louisiane, etc.; et pas toujours mais dans une seule saison de l'annee, a la fin de l'ete lorsque le fort soleil seche les endroits paludeux et engendre le miasme paludeux ou la *malaria*, producteur des fievres intermitentes de toute espece, benignes et pernicieuses. Hors de ces conditions topographiques et de cette saison on ne les a vues jamais. Le cholera morbus ne respecte pas aucun climat, aucune saison, aucune situation topographique: on l'a vu faire des ravages dans les chaleurs de l'Indoustan et pendant l'hiver de Russie, d'Anglaterre et de Paris; sous le ciel triste et brumeux du Nord et sous le ciel riante de Geens, de Livourne et de Palermo, dans la plaine humide et chaloreuse et dans les collines seches, ventilees et froides. Et maintenant nous observons cette maladie caracterizee par la diarree sereuse, les vomisments, les crampes, la cianosi, etc., regner avec plus ou mois de force autant dans un lieux malsain et paludeux tel que Sacramento, comme en San Joseph qu'on a nomme l'Eden et Italie de Californie, que dans cette ville sans paludes et avec un vent et une temperature toujours invernales.

Qoique on veuille laisser de cote la grande question de sa nature contagieuse, neamoins sufisait rappeler l'histoire du C. M. de 1817 au 1831 par Moreau de Jones ou celle du Dr. Brown et de plusieurs autres pour ne s'etonner pas de voir eclater parmi nous une maladie qui venait de faire des ravages en Panama et Acapulco, et do faire des victimes dans les memes navires a vapeur qui en venaient reguliernent.

Relativement au diagnostique, je dirais que il y a des *fievres pernicieuses* non pas *une* fievre pernicieuse, et les medecins qui ont eu occasion de les observer et traiter, ou du moins qui connaissent le livre clasique de mon inmortel compatriote *Francesco Torti* qui a introduit le premier l'usage du quinquina dans le traitement de ces fievres sauront, aussi qu'il y a des fievres algides, sincopales, diaforetiques, coleriques, disenteriques, comateuses, cefalalgiques, et que malgre que toutes se traitaint avec le meme divin remede neamoins une forme est aussi differente de l'autre comme l'apoplessie l'est de la dissenterie, la sincopes l'est du *Sudor Anglicus*, comme la cefalalgie l'est du colera morbus. Dans les endroits paludeux jamais on observe une seule de ces formes; mais toutes ou plussieures qui eclatent en ralation des dispositions individuelles.

Et comment arrive t'il que ici on a vu seulement une seule forme la colerique, non la sincopale, non l'algide, non la comateuse, non la diaforetique? Comment cette meme forme colerique n'est pas celle qui corresponde au C. M. Sporadique au *flaxus bilis*, mais au C. M. Asiatique au profluve sereux avec cianosi?

Les fievres pernicieuses sont des maladies intermittentes; la maladie dominante en S. Francisco n'est pas intermittente: si le malade sort du periode algide, guerit ou meurt d'autre maladie sans le retour en des jours alternees du meme ensemble des symptomes.

Les pernicieuses jamais ou bien rarement tuent au premier assaut. Presque toujours le premier acces est la voix de alarme qui provoque le secour medicale. Si on neglige ce secour apres un jour de intermission, le second attaque est mortel ou le troisieme. Mais si l'aide de la medceine qui consiste dans la prompte et genereuse exhibition du quinino ne manque pas, le malade est sauve. Mais il est connu desormais que ce divin remede a bien de l'influence a prevenir les attaques successives et a rompre leur chaine, pas a couper l'acces actuel et present et sauver le malade comme tonique et estimulante. Ici on a vu de ces malades traitees avec des fortes doses de quinino mourir de meme que ceux qui ont'ete traitees d'autre maniere et prontement. On a vu echaper du periode algide sans quinine, comme je le peux pruver avec des faits de ma pratique particuliere, tandis qu'il est certain que les veritables pernicieuses ne guerissent pas sans le remede Peruvien. Ainsi les fievres pernicieuses sont le temoin le plus eclatant de bienfaits et de la eficacie de l'art medicale tandis que le C. M. est la preuve de son inpuissance. Je observerais enfin que dans la maladie dominante, dans cette *fievre* pernicieuse n'y a pas de *fievre*, et lorsqu'elle arrive, la forme colerique n'est plus, le malade est sauve, ou s'il meurt, il meurt d'autre maladie. *Suivra.*

THEATRICALS.—All our Theatres were well filled last evening. Hundreds who formerly strolled into the gambling saloons to while away an evening now spend their leisure hours at play houses of quite a different character.

The performance at the Jenny Lind was very acceptable. "The Stranger" was well cast. Though an old play, it is one which always touches the heart.

"Luke the Laborer" preceded the "Glance at New York," at the Adelphi. The former was well done generally, but the latter only so-so. The Adelphi is running "Mose" into the ground, and ruining "Lize" altogether. Both the Adelphi and Jenny Lind seem to be "gallus" mad on this extravaganza.

That lovely little box of a place, the Dramatic Museum, is determined to progress with California. The proprietors have just reduced the prices of admission, as will be seen by their advertisement, and if their establishment can accommodate the crowd now, we shall be much mistaken. Just see what a bill the managers present for to-night.

MORE ABOUT SEAMEN.—We learn that the Chilian brig Castor, Capt,—— which arrived from Talcahuana on Monday afternoon, 25th ult., has been sued by the hands for wages due them. They shipped at $10 per month for the voyage up. By a forgery in the articles, which were in Spanish and read to those who signed them through an interpreter, they were, it seems, required to make the voyage round.

Justice Shepheard decided yesterday, very justly we conceive, in favor of the seamen. We hope all these abuses practised down this coast will be properly exposed. We shall cheerfully give publicity to them whenever they come to our knowledge, properly authenticated. The interests of commerce in these seas very naturally demand it.

☞ We take pleasure in calling attention to the advertisement of Mr. S. Newman, whose store is in Washington street, below Montgomery. His goods are well adapted to this market, and very cheap.

Cholera Localitites.

Dr. Charles T. Jackson, a well known geologist and chemist of Boston, states as the result of his researches and observations, that the Asiatic Cholera prevails most extensively in calcareous (or limestone) districts, as Canada, New York, Ohio, and the Mississippi valley; and he gives it as his opinion that this is the reason why the New England States have generally escaped the scourge, they having a different geological formation. There are, however, two species of limestone soils—the bi-carbonate, which is the most likely to attract and promote the spread of Cholera, and the muriate and sulphate, which are not so bad.

Remedy.—The Rev. H. G. Dwight, American missionary to Constantinople, says that the Cholera nearly always begins with a mild diarrhœa, which is easily cured. Six drops of laudanum, (he says,) in mild cases, is sufficient for adults; repeat every 4 hours till the ailing ceases. In severe cases, larger doses.

In extreme cases, where there is much pain, tendency to cramp, and coldness of extremities, Mr. D. advises a mixture of equal parts of laudanum, tincture of rhubarb, and tincture of camphor—a dose of 18 drops, to be increased, if necessary.

During his residence in Constantinople, Mr. Dwight has seen much of the ravages of Cholera, and he says he has often witnessed the speediest and most effectual relief from the above remedies.—[*Exchange paper.*

In the present state of the public health, we deem it not inappropriate to state, that "the mild diarrhœa" above referred to, *is* the cholera itself in the first and only curable stage of the disease.

MR. EDITOR;—Please send the *Picayune* man for what he said to-day. We don't blow for any other organ than our own, being wholly *independent*, always going for those we like best. Hope his cholera man will always keep on the track.

OH! THE DOCTORS!

THEY don't like ANDERSON'S Medicine for the cure of CHOLERA, DIARRHŒA and DYSENTERY; it takes away their practice by effectually and promptly curing every one who takes it for any of the above complaints, and they won't administer it themselves, as it performs such speedy cures that they are prevented from making heavy bills against their patients. Verily, the doctors are queer—but are they *right*? The reader, however, will be wiser, by going directly to the bar of THOS. MAGUIR'S SALOON, (under the Jenny Lind Theatre,) and purchase a bottle of this great Medicine. Only $5 per bottle. d5 3

CUNNINGHAM'S WHARF.
FOOT OF BATTERY STREET—This wharf is now in order, and having twenty-six feet of water at its end, and sufficient at its side for the largest class of vessels, offers great inducements for them to land there, as by so doing, they will be able to discharge in one half the time and at much less expense than they would be put to if lying in the stream. Consignees will also find it greatly to their advantage to have their goods discharged at this wharf, as by this means they avoid all risk of damage consequent upon lighterage, and receive their goods in much less time and at about half the expense they would if delivered in the stream. A spacious shed and fire-proof building are connected with the wharf, in which goods will be stored at the lowest rates, in such a manner that samples can at all times be taken. Goods landed or stored on this wharf will have the advantage of being shipped by first class steamers to Sacramento city and the mining districts, free of all charges of cartage. Rates of dockage and wharfage, which will be low, will be made known by applying to the subscriber.

SAN JOSE. SAN JOSE.
BERFORD & CO'S LINE OF EXPRESS MAIL STAGES,
HALL & CRANDALL, PROPRIETORS,

ARE now running every morning to San Jose, leaving Berford & Co's office, in the Plaza, at 8 o'clock, A. M. and the City Hotel, in San Jose, at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skilful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to SAFETY, while the drivers, who have served a long apprenticeship from New England to Mexico, make the QUICKEST time and NEVER MEET WITH ACCIDENTS, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the Line a trial. n7tf BERFORD & CO.

STATE LAW.

AN ACT providing for the creation of a Marine Hospital for the State of California:

The People of the State of California, represented in Senate and Assembly, do enact as follows:

§1. There shall be established within and for the State of California, a Marine Hospital, and all buildings belonging to, or connected therewith, shall be erected upon grounds containing not less than twenty acres, and which at the time of such erection, shall belong to the State and shall be situated upon the bay of San Francisco, and not less than two nor more than twelve miles distant from that part of the town of San Francisco, known as "Clark's Point."

§2. The said Marine Hospital, together with its lands and all buildings and improvements which may be made thereon, shall be held by the Board of Health, in trust, for the people of this State, for the purposes specified in this Act. And said Board of Health shall have power, and are hereby required to purchase said lands, and erect for the said Marine Hospital proper and necessary buildings and improvements, as soon as funds sufficient for such purpose, over and above salaries and other incidental expenses, shall be received by them in their official capacity; Provided, however, that the whole cost of the said grounds, hospital and other buildings and improvements so to be erected, shall not exceed the sum of fifty thousand dollars; and until such time as the said grounds shall be obtained, and the necessary buildings erected thereon and ready for the use of the said Marine Hospital, the said Board of Health shall be authorised to make suitable temporary arrangements for the same, within the limits prescribed by the first section of this act.

§3. The Board of Health shall cause a draft of such building or buildings to be made as they may deem necessary for the Marine Hospital, which draft or plan shall be subject to the inspection of the Governor of the State, and if he approve the same, they may receive sealed proposals for the furnishing of the material, and for the erection of the same, and the contract shall be given to the lowest responsible bidder.

§4. The sums necessary to keep the buildings of the Marine Hospital in good repair, including the expenses of erecting all such buildings, and for making such improvements as the Board of Health shall deem indispensable, shall be charged as part of its annual expenses.

§5. The Health Officer shall reside at the Marine Hospital, unless otherwise directed by the Board of Health, and shall by right of office be Physician of such Hospital, give orders for the admission of patients, and have the immediate control of its inmates, and shall employ and discharge all nurses and attendants; but the Board of Health shall, in all other respects, have the superintendence thereof; make rules and orders for its government, and provide bedding, clothing, fuel, provisions, medicine, and such other articles as shall be requisite therein, and shall pay out of the funds of the Hospital all wages for said nurses and attendants, as well as all incidental expenses of said Hospital, and shall fix the compensation of said nurses and attendants.

§6. The Board of Health shall, at all times, furnish a convenient boat, with sufficient boatmen, for the use of the Health Officer and Resident Physician, the expense of which shall be charged to the funds of the Hospital.

§7. All sick sailors, mariners and other persons who shall have paid hospital money, or for whom the bond hereinafter mentioned shall have been given, shall be entitled, free of charge, to all the benefits of the said Marine Hospital, and to be there provided for while sick; and also such other persons as the authorities of the city of San Francisco may request; provided, the said authorities shall pay therefor such charges as the Board of Health may direct; and every sick person sent to the Marine Hospital, shall be there kept and attended to with all necessary and proper care; and no such person shall leave the Hospital until the Health Officer shall grant a discharge in writing.

§8. The Health Officer may direct, in writing, any constable to pursue and apprehend any person not discharged as aforesaid, who shall elope from the Hospital, and to deliver such person at the Hospital, to be there detained until regularly discharged. It shall be the duty of the constable so directed to obey such instructions; and every person who shall so elope shall be considered guilty of a misdemeanor, punishable by fine or imprisonment.

§9. All persons sent to the Marine Hospital other than those who shall have paid hospital money, who shall be provided for by the city of San Francisco, and such persons as the Board of Health shall exempt, shall pay a reasonable sum for their board, medicines and attendance; and for the recovery of such sum, the Board of Health may sue in their name of office.

§10. Within twenty-four hours after the arriving of any ship or vessel at the port or within the bay of San Francisco, and before leaving said port or bay for any other place within the limits of this State, from any of the United States other than this State, or from any country out of the United States, the master or commander of such vessel or ship on which such passengers shall have arrived, shall make a report in writing, on oath or affirmation to the Board of Health at their office in the city of San Francisco, which report shall state the name and number of all the cabin and steerage passengers, captains, mates and sailors, and also the name and residence of the owner or owners and consignee of such vessel. In case any such master or commander shall omit or neglect to report fully as aforesaid, or shall make a false report or statement, he shall forfeit the sum of five hundred dollars for every such passenger or person in regard to whom any such omission or neglect shall have occurred, or any false statement shall have been made, for which the owner or owners, or consignees of every such vessel or ship shall also be liable jointly and severally, and which may be sued for and recovered as provided in this act.

§11. It shall be the duty of the said Board of Health to require the owners or consignees of the said ship or vessel on which said persons have arrived, to give a several bond to the State in a penalty of two hundred dollars for each and every person included in such report, such bond being secured as hereinafter provided, conditioned to indemnify and save harmless the Board of Health, and each and every city, town or county in this State, from any costs which such Commissioners of Health, or such city, town or county, shall incur for the relief or support of the person named in the bond, within five years from the date of the bond; and also to indemnify and refund to the said Board of Health, city, town or county, any expense or charge they may necessarily incur for the support or medical care of the person therein. Each and every bond shall be secured by two or more sufficient sureties, being residents of the State of California; each of whom shall prove by oath or otherwise, to the satisfaction of the Board of Health, that he is owner of freehold in this State of the value of three hundred dollars over and above any claim or lien thereon against him; including therein any contingent claim which may accrue from or upon any former bond given under the provisions of this act.

§12. It shall be lawful for any owner or consignee at any time within two days after the arrival of such person or passenger in any ship or vessel at the port or within the bay of San Francisco, and before leaving said port or bay for any other place within the limits of this State, to commute for the bond or bonds so required, by paying to the Health Commissioner: 1st. AN ACT to Establish Pilots, and Pilot regulations for the Port of San Francisco.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

§1. It shall be the duty of the Governor to appoint two resident Merchants, and two experienced and resident Ship Masters, who, together with the Harbor Master of the Port, shall constitute a Board of Pilot Commissioners for the Port of San Francisco.

§2. The persons thus appointed shall take an oath for the faithful discharge of their duties, and shall hold their office for the term of one year, and until their successors are appointed and qualified.

§3. The Commissioners shall keep an office at San Francisco, and shall meet therein on the first Monday of each month. A majority shall constitute a quorum for the transaction of business.

§4 They shall appoint a Secretary, who shall hold his office for one year. He shall give bond, with security, to be approved by the Commissioners, payable to the State of California, in the sum of ten thousand dollars; conditioned for the faithful discharge of his duty, which bond shall be filed in the office of the County Clerk, and be for the use of the party aggrieved.

§5. The Commissioners shall make By-Laws and Rules for their own government, not inconsistent with the provisions of the laws of this State or the United States.

§6. The Commissioners shall have power to purchase an iron safe for the keeping of money, papers, books, or other things of value belonging to their office.

§7. It shall be the duty of the Secretary to keep correct minutes of all the proceedings of the Commissioners, in books provided for that purpose. To receive all money, and pay out the same when ordered so to do by the Board, and shall register the names of all Pilots, with the date of their licenses. These registers and books shall always be open to public inspection.

§8. He shall keep a monthly record of the arrival and departure of the pilot boats, names and residences of all pilots, and to perform such other duties as the Board may direct.

§9. Tee Secretary shall receive for his compensation, such sum as the Commissioners may deem just.

§10. Neither the Commissioners or the Secretary shall have any interest, directly or otherwise, in any pilot boat, or the earnings thereof.

§11. The Commissioners shall have power to appoint, in the manner prescribed in this Act, such number of pilots for said port as they may deem necessary.

§12. Persons applying for licenses to act as pilots for the port of San Francisco, shall be American citizens, and not under the age of twenty-one years, and in presence of one or more licensed pilots shall be rigidly examined by the Commissioners, touching their qualifications, concerning their knowledge of the management of square-rigged vessels, of the tides, soundings, bearings and distances of the different shoals, rocks, bars, and points of land, and night lights of the Harbor and Bay; and if deemed to be qualified, shall receive a license as a pilot, which shall expire at the end of twelve months.

§13. Every licensed pilot, previous to entering on his duties, shall give bond to the amount of five thousand dollars, payable to the State of California, for the faithful discharge of his duty, which bond and security shall be approved of by the Commissioners, and shall be filed in their office.

§14. The Commissioners shall have full power to suspend pilots, or revoke their licenses, on proof of incapacity or misconduct.

§15. As soon as a sufficient number of pilots are associated to keep a boat, such boat shall be numbered by the Commissioners, in the order of application, and her name and number duly recorded by the Secretary, and such number shall be distinctly painted in black letters, to be at least two feet long, and above the balance reef of the foresail of such boat; the pilots shall then select one from their number, whose duty it shall be to make reports to the Commissioners.

§16. On the first Monday of every month, the person so selected shall pay over to the Secretary the amount of per centage assessed by the Commissioners for the purpose defined in this Act, and report the names of the vessels, and the amount received from each, verified by his signature.

§17. Every pilot, on boarding a vessel, when required by the master thereof, shall exhibit his license to such master, and on refusal so to do, shall be liable to a penalty of fifty dollars.

§18. Any pilot absenting himself from his duty for more than two months, except on leave granted by the Commissioners, or by sickness, shall be considered as having forfeited his license.

§19. In case a pilot does not apply at the end of the time for which his license was granted, for a renewal of the same, he shall be considered as suspended.

§20. If any licensed pilot shall become intoxicated whilst having charge of any vessel as pilot, he shall be suspended or dismissed, as the Commissioners may elect.

§21. Not more than six pilots shall be in copartnership, or interested at any one time in the business of piloting, and for any infringement of this section, shall be subject to such penalty as may be determined by the Commissioners.

§22. The Commissioners may require pilots to renew their bonds and securities whenever it is deemed necessary and they may take away the license of any pilot for wilful infringement or violation of their duty, or negligently losing any vessel, or for mental derangement, or habitual drunkenness: *Provided*, due notice in writing be given to such pilot, and an opportunity be afforded him of being heard in his own defense.

§23. For carelessly or negligently losing a vessel, on conviction thereof, the pilot having charge of said vessel at the time, shall be incapable ever after of acting as pilot, and shall moreover be liable for damages on his bond. If a vessel be run ashore by a pilot, no pilotage shall be charged, and if negligently done, the pilot shall be liable for all damages.

§24. It shall be the duty of every pilot in charge of a vessel arriving in the harbor, to have the vessel safely moored, in such position as the master of the vessel, or Harbor Master of the port may direct.

§25. When complaint is lodged with the Commissioners against a pilot, for misbehavior or neglect of duty, it shall be reduced to writing and sworn to. Notice thereof must be then given to the pilot, and he shall be notified to appear within fifteen days to answer the complaint. If the answer be not satisfactory, he may be fined not exceeding five hundred dollars, or deprived of his license, at the discretion of the Commissioners. An appeal may be made by the pilot within fifteen days from the decision of the Commissioners, to the County Court of the County of San Francisco.

§26. Each and every pilot boat shall keep on board a journal, noting in detail all incidents of weather, and all discoveries which may be made of rocks, shoals or bars, in the Bay of San Francisco and vicinity, such as may be considered dangerous to navigation. False entries therein shall subject the parties offending to fine or loss of license, or both, at the discretion of the Commissioners. And the said journals shall be open to the inspection of the Commissioners.

§27. No persons, except those licensed by the Commissioners, shall pilot vessels in or out of the harbor or bay of San Francisco, for hire, under penalty of five hundred dollars for each and every offence. This penalty is not incurred when the master of a vessel acts as his own pilot, or in case of distress.

§28. Applications for pilots for vessels outward bound, shall be made at the office of the Commissioners; the secretary shall then direct a pilot to such duty, giving preference to the pilot who brought the vessel in; and a pilot refusing or neglecting, shall be fined not exceeding five hundred dollars, or suspended, according to the discretion of the Commissioners.

§29 The Commissioners may make all needful rules and regulations for the government of the pilots, and establish penalties for the breach thereof, and shall prepare printed instructions for pilots, and furnish each of them with a copy of such rules, regulations and instructions, together with a copy of this Act.

§31. The following fees shall be charged by the pilots of the Port of San Francisco:

1st, For bringing in a vessel from or within a line of San Pedro, Farallones and Point de Los Reys, into the harbor, shall be eight dollars per foot draught.

2d, For brining in a vessel beyond the above mentioned line, ten dollars per foot draught.

3d, For piloting a vessel out of the harbor, eight dollars per foot draught.

4th, Foreign vessels not entitled to equality by treaty, shall pay one-fourth more than the above rates.

5th, American or foreign men-of-war, twelve dollars per foot draught, either inward or outward bound.

§32. The pilotage from quarantine to anchorage opposite San Francisco, and for piloting vessels about the harbor, shall be at such rates as may be agreed on between the parties.

§33. Any vessel with a pilot on board, being detained more than twenty-four hours by contrary winds, bad weather or other cause not the fault of the pilot, shall pay to such pilot the sum of eight dollars per day, exclusive of his regular fees, for each day's detention, whether such vessel be inward or outward bound.

§34 The pilot first offering his services to any vessel shall be entitled to half pilotage, though his services may be rejected: Provided, that all vessels engaged in the coasting trade of this State or Oregon, not exceeding one hundred and seventy-five tons burthen, shall not be liable to the provisions of this section.

§35. Pilots blown off or carried to sea against their will when a boat is in attendance to receive them, shall be entitled to receive the sum of eight dollars per day while absent, which if not paid by the master or owners, shall be collected from the consignee or consignees, or either of them.

§36. The master, owner, or consignee of any vessel to whom any pilot may have rendered upon request of either of them, any extra service for the preservation of such vessel while in distress, shall pay such pilot in addition to his regular fees, such amount as the Commissioners shall determine to be a reasonable and just reward: Provided no special agreement shall have been made between such master, owner, or consignee of such vessel and the pilot.

§37. A pilot boarding any vessel having a signal for a pilot, shall be entitled to receive full pilotage.

§38. If a vessel bound to San Francisco be lost within the line of Point San Pedro, Farallones, and de Los Reys, having had a signal for a pilot, and been in sight of either of the above named points, and not having been able to procure a pilot, the Commissioners shall cause inquiry into the facts, when if it shall appear that the pilots have been neglecting their duty, the Commissioners shall suspend or displace the parties guilty, and shall publish the result of their investigation.

§39. The Commissioners shall have power to assess all fines and penalties either on the pilots or any other person or persons for a violation of any of the provisions of this Act, and shall have power to sue for and collect the same in their own name; the money so collected shall be appropriated to the use and benefit of the Marine Hospital, which may be established at San Francisco, and paid to such person as may be entitled by law to receive the same.

§40. The Commissioners shall be entitled to charge for each and every license to a pilot, not exceeding the sum of fifty dollars, and any master of a coasting vessel being an American citizen, can upon application to the pilot Commissioners obtain a special license for the use of such vessel only; by paying unto said Commissioners for the same, at the rate of one dollar per ton, all such vessels to be under one hundaed and seventy-five tons.

§41. The Commissioners shall be entitled to receive a per centage, which they shall determine, upon the joint earnings of the pilots, sufficient only to pay all necessary expenses for the employment of Secretary, rent office, stationery, lights and fuel, at the end of twelve months, any surplus of such percentage over and above such expenses shall be held in trust and paid as prescribed in section thirty-nine of this Act.

STATE LAWS.

§42. All claims against said Commissioners shall be considered at a stated meeting, and if correct, shall be allowed and paid.

§1. All Master Builders, Mechanics, Lumber Merchants, and all other persons performing labor, or furnishing materials for the construction or repair of any building or wharf, shall have a lien separately, or jointly, upon the building or buildings, or wharf, which they may have furnished materials of any description, to the extent of the labor done, or materials furnished, or for both.

§2. Any such contractor, journeyman, or laborer who may be employed in the construction or repairing of any building or wharf, or in furnishing any materials for the same, may give to the owner or owners of the building or buildings or wharf on which he may have worked, or for the construction of which he may have furnished materials, notice in writing, particularly setting forth the amount of his claim, and the service rendered, for which his employer is indebted to him, and that he holds said owner or owners responsible for the same; and the owner is hereby made liable for the amount so claimed, if indebted to the employer to the amount, if not, then to the amount due from him to said employer at the time such notice was served.

§3. When any such contractor, journeyman, or laborer shall have given the notice prescribed in the preceding section, he shall present to his employer a copy of such notice for his endorsement. If such employer endorse thereon that the claim is correct, the owner or other person liable shall pay the same, if indebted to the employer in the amount; if not, then the amount due from him to said employer at the time the notice was served. If he fail, or refuse so to pay, such sub-contractor, journeyman, or laborer, shall, within thirty days after the service of the notice, commence an action in the proper court to enforce his lein. If he fail to commence his action, as prescribed in this section, his lien shall be lost.

§4. If the employer fail or refuse to make the endorsement required by the preceding section, such sub-contractor, journeyman, or laborer shall lose his lien for the amount claimed, unless he shall, within thirty days after the service of the notice, commence an action in the proper court against his employer, to establish the amount of the claim. §9. The lien for work or materials, given by this Act, shall be preferred to every other lien or incumbrance, which attached upon the property subsequent to the time at which the work was commenced or the materials were furnished.

§10. Any person who has received satisfaction for his debt, for which a claim has been filed, or action brought, where such claim was filed or such action brought.

§11. Any person failing or refusing to enter satisfaction, when required so to do, by the preceding section, shall forfeit and pay to the party or parties aggrieved the sum fifty dollars for each day during which he shall so fail or refuse; to be recovered in the same manner as other debts are recovered.

§12. Nothing in this Act shall be construed to take away or affect in any manner any action which any such contractor, journeyman, or laborer would otherwise have against the owner of property on which work is performed, or for which materials are furnished.

§13. Any Mechanic or artisan who shall make after, or repair any article of personal property, at the request of the owner or legal possessor of such property, shall have a lien on such property so made, altered, or repaired, for his just and reasonable charges, for his work done and materials furnished; and may hold and retain the possession of the same until such just and reasonable charges shall be paid; and if not paid for in the space of two months after the work shall have been done, such mechanic or artisan may proceed to sell the property by him so made, altered, or repaired, at public auction, by giving three weeks' public notice of such sale, by advertisement, in some newspaper published in the county in which the work may be done, or if there be no such newspaper, then by posting up notices of such sale in three of the most public places in the town where such work was done; and the proceeds of such sale shall be applied, first, to the discharge of such lien, and the costs and expenses of keeping and selling such property, and the remainder, if any, shall be paid over to the owner thereof.

§14. Nothing contained in this Act shall be deemed to apply to, or affect any lien heretofore acquired.

KLAMATH GOLD MINES,

RIVER and Town—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered as any now in existence in California. The Harbr, (at the upper end of which, this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco, of a perfectly safe entrance. The river is a magnificent stream, and navigable for steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital, cannot enter into a better speculation, or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must, and will undoubtedly be insured a speedy and almost magic growth, and by this time next year, will be a very respectable rival to, (if no totally eclipsing) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one-tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions, will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners, in the place of the pack-saddle of the mule, and provisions now furnished at an expense of $1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next Spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Schultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. JOHN GRAY, at Messrs. Schultz & Palmer's, or to Mr. T. BUNTING, at the firm of Worthington, Beale & Bunting, on Montgomery street. o16

STATE MARINE HOSPITAL.

THE COMMISSIONERS OF HEALTH for the port of San Francisco, have taken the building on Stockton street, lately known and occupied as the American Hotel, and have converted the same into a State Marine Hospital. The public are informed that the Hospital is now open for the reception of patients.

The public authorities of the city of San Francisco, who have charge of the city poor, citizens, and all persons not entitled to hospital privileges, are also informed that patients will be admitted at this hospital, for the very moderate sum of $28 per week, in advance, including board, lodging and medical attendance. For admission, apply at the Hospital, to the Resident Physician.

LORENZO HUBBARD, M. D.
Resident Physician.

N. B. No patient laboring under an infectious or contagious disease will be treated at this Hospital, but a suitable place will be provided for them, on application as above. o1
